

Hadley Wood Primary School Supporting Pupils with Medical Conditions and the Administration of Medicines Policy

Date the policy came into effect	June 2023
Date of the next policy review	July 2024
Name of the person responsible for	Charmaine Obika
this policy	
Issued to	Staff, governors and parents
Date of issue	March 2019

Supporting Pupils with Medical Conditions and the Administration of Medicines Policy

1. Introduction

- 1.1 The Governing Body and staff of Hadley Wood School wish to ensure that pupils with medical conditions and/or short or long term medication needs are not excluded but receive appropriate care and support. The Headteacher will accept responsibility in principle for members of staff giving or supervising pupils taking prescribed medication or need support due to their medical conditions during the day where those members of staff have volunteered to do so.
- 1.2 Hadley Wood School will identify a person responsible for supporting pupils with medical conditions and/or a requirement for the administration of medicines in situations where other members of staff do not volunteer to carry out the task

2. Parent/Carers' Responsibility

- 2.1 Please note that parents/carers should keep their children at home if acutely unwell or infectious.
- 2.2 Parents are responsible for providing the Headteacher with comprehensive information regarding their child's condition and/or medication requirements.
- 2.3 Prescribed medication will not be accepted in school without complete written and signed instructions from the parent. **NB** Antibiotics that are to be administered three times a day can be given before and after school and at bedtime. These do not need to be administered at school.
- 2.4 Only reasonable quantities of medication should be supplied to the school for the administration by staff (for example, a maximum of four weeks supply at any one time).
- 2.5 It is the parents' responsibility to renew the medication when supplies are running low and to ensure that the medication supplied is within its expiry date.
- 2.6 For staff administration each item of medication must be delivered to the Headteacher or Welfare Officer, in normal circumstances by the parent, in a secure and labelled container as originally dispensed. Each item of medication must be clearly labelled with the following information:
 - Pupil's Name
 - Name of medication
 - Dosage
 - Frequency of administration
 - Date of dispensing
 - Storage requirements (if important)
 - Expiry date

3. Responsibility of School

- 3.1 Staff will not give a non-prescribed medicine to a pupil unless there is specific prior written permission from the parents
- 3.2 The school will not accept items of medication in unlabelled containers.
- 3.3 Medication will be kept in a secure place, out of the reach of pupils. Unless otherwise indicated all medication to be administered in school will be kept in a locked medicine cabinet or, where appropriate, a refrigerator.
- 3.4 The school will keep records, which they will have available for parents.
- 3.5 If the pupil refuses to take their medication, staff will not force them to do so, and will inform the parents of the refusal, as a matter of urgency, on the same day.
- 3.6 In this situation the medication record should note the refusal and the parental contact made.
- 3.7 If a refusal to take medicines results in an emergency, the school's emergency procedures will be followed.

- 3.8 It is the responsibility of parents to notify the school in writing if the pupil's need for medication has ceased.
- 3.9 The school will not make changes to dosages on verbal parental instructions.
- 3.10 Staff will not dispose of medicines. Medicines, which are in use and in date, should be collected by the parent at the end of each term. Date expired medicines or those no longer required for treatment will be returned immediately to the parent.
- 3.11 For each pupil with a long-term or complex medical condition, the Headteacher, will ensure that an Individual Healthcare Plan (IHCP, not to be confused with the Education, Health and Social Care Plan which has replaced the 'Statement') is drawn up, in conjunction with the pupil's parents and appropriate health professionals.
- 3.12 Some pupils with a medical condition will also require the administration of medicines. The Headteacher will therefore ensure that all appropriate consent forms are completed and appropriate review periods set.
- 3.13 The school will make every effort to liaise with a school nursing service to ensure that pupils with medical conditions are supported.
- 3.14 Where it is appropriate to do so, pupils will be encouraged to administer their own medication, if necessary under staff supervision. Parents will be asked to confirm in writing if they wish their child to carry their medication with them in school. NB this will generally be 'inhalers' A member of the teaching team for the class should keep a note of when the child uses the inhaler and this should be available for the parents.
- 3.15 Staff who assist in the administration of medication will be able to receive appropriate training/guidance through arrangements made with the School Nursing Service. All staff will be offered annual training in the administration of epi-pens.
- The school will make every effort to continue the administration of medication whilst on trips away from the premises, even if additional arrangements might be required. However, there may be occasions when it may not be possible to include a pupil on a school trip if appropriate supervision cannot be guaranteed.
- 3.17 All staff will be made aware of the procedures to be followed in the event of an emergency.

Health Services

Community Paediatric Services:

Some children with medical needs receive dedicated support from specialist nurses or community children's nurses, for instance a children's oncology nurse. These nurses often work as part of a NHS Trust or PCT and work closely with the primary health care team – general description – what happens in Enfield. They can provide advice on the medical needs of an individual child, particularly when a medical condition has just been diagnosed and the child is adjusting to new routines.

Contact: Cathy StJohn
Paediatric Nursing Service
Cedar House
St.Michael's
Gater Drive
Enfield EN2 0JB

Tel: 020 8702 5620

School Nurses:

School nurses are qualified public health nurses, who work in partnership with schools, parents and healthcare professionals to provide health promotion and protection for school aged children. The school nurse can advise, or will know where help can be sought on many health matters.

Enfield School Nursing Service is accessible through self-referral from children or families, referral from education staff, social services, LAC Nurse Specialist, Child Protection Named Nurse, medical colleagues and Health Visitors

Joint Service for Disabled Children:

The Joint Service for Disabled Children is an important partnership developed by Enfield's Children's Trust, to support and promote opportunities for all disabled children and their families in Enfield.

The Joint Service includes:

- Enfield Community Services
- The Early Intervention Support Service (EISS)
- Cheviots Specialist Children's Disability Centre/Service.
