

Hadley Wood Primary School Assessment Policy

Date the policy came into effect	September 2025
Date of next policy review	September 2026
Version number	4
Name of person responsible for this policy	Fran Worby
Issued to	Staff, governors, parents
Date of issue	September 2020

HADLEY WOOD SCHOOL ASSESSMENT POLICY 2025

At Hadley Wood we believe that assessment is an integral part of quality first teaching. It helps us to identify individual's strengths and next steps and is a resource to allow pupils to take responsibility for their own learning.

To ensure that we apply a fair and robust system of assessment, we follow an assessment cycle:

There are two strands of assessment at Hadley Wood School, Assessment for learning and Assessment of learning. Both forms of assessment are imperative to ensure that all of our children are achieving their potential and making consistent progress.

Assessment for learning:

- is part of effective planning
- focuses on how pupils learn
- is central to classroom practice
- is a key professional skill
- is sensitive and constructive
- fosters motivation
- promotes understanding of goals and criteria
- helps learners know how to improve
- develops the capacity for peer and self-assessment
- recognises all educational achievement

Assessment of learning:

- measures children's abilities against national standards
- helps us maintain a record of how each child is improving, so that we can see quickly if there are any specific areas where they need more help
- can be assessed using tests
- happens at the end of a unit of work, half term, term or year
- enables us to give a numeric score (numeric scores enable test-takers to be compared with a large, nationally representative sample)
- is part of the statutory requirements of our school

Assessment will be used in the following ways:

- **Formative** - the information gained "forms" or affects the next learning experience. The most crucial kind of assessment is 'assessment for learning' which is completed each lesson so that the work for the following day can be planned appropriately.
- **Diagnostic** - finding out which attitudes, knowledge, understanding or skills are not properly learned or acquired and are therefore creating barriers to learning.
- **Evaluative** - informing the strategic planning and direction of the whole school by evaluating the impact of planning, teaching and the curriculum on pupils' achievements.
- **Summative** - systematic recording of information which leads towards a summary of where the pupils have reached at a point in time. This is an essential tool for identifying progress over time.

Timetable of assessments at Hadley Wood School

Formative assessment is a continuous process at Hadley Wood School, allowing teachers to use the assessment information collected on a daily basis to plan effective lessons for their classes, to ensure that children are making effective progress and that where children need additional experiences, extra support or clarification, opportunities are provided.

Summative assessment indicates a child's independent response to a topic and is also used to ascertain pupil's exam technique so that they can be suitably prepared external assessments.

Assessment data - (summative data informing ongoing teacher assessment) should be prepared for pupil progress meetings which take place three times a year towards the end of each term – following each check point, so that it can be analysed to ensure that individuals and cohorts are making the progress expected according to local and national standards.

Assessment is gathered in a variety of ways:

- questioning – teachers ongoing informal assessment, happening throughout the lesson
- observations
- pupil discussion
- pupil self-assessment
- marking - marking is used to praise achievement and identify where children meet the success criteria (see Marking Policy)
- brief tests – mental maths tests, quizzes etc
- end of unit checks (in mathematics)
- Checking understanding at the end of each unit of work by answering the Big Question (wider curriculum)
- independent writing assessments (including cold and hot tasks)
- levelling against National Curriculum year expectations
- TAF (Teacher Assessment Framework)
- reference to past SAT questions
- SATs (Statutory Assessment Tests in Year 6)
- use of termly PiRA and PUMA Assessments

Use of PiRA and PUMA Assessments

Hadley Wood Primary School uses PiRA and PUMA assessments as part of our ongoing cycle of assessment. These standardised tests enable teachers to track progress in reading and mathematics, identify gaps in learning, and plan targeted interventions. Data from these assessments informs teaching, supports accurate reporting to parents, and ensures that all pupils are making the progress expected of them.

How We Use PiRA and PUMA

- **Regular Assessment:** Pupils in all year groups complete PiRA and PUMA assessments at key points during the academic year
- **Informed Planning:** Teachers use the outcomes to identify strengths and gaps in knowledge for individuals, groups, and cohorts. This informs planning and targeted intervention
- **Progress Tracking:** Results from PiRA and PUMA assessments are used to track progress over time, ensuring that all pupils are supported to achieve their potential

- Standardised Data: The assessments provide standardised scores, allowing us to benchmark pupil attainment against national expectations and monitor the impact of our teaching
- Diagnostic Analysis: Teachers and leaders analyse question-level data to identify trends, address misconceptions, and adapt teaching to meet the needs of all learners

Assessment

Hadley Wood Primary School uses Insight as our whole-school assessment system. Teachers record assessment data—including PiRA, PUMA, statutory, and teacher assessments—at key points throughout the year. Insight enables us to track pupil progress, identify trends, and inform teaching and interventions. Senior leaders and governors use Insight data to monitor the impact of our curriculum and support school improvement.

How We Use Insight

- Centralised Data Recording: All summative and formative assessment data are recorded in Insight.
- Consistent Tracking: Teachers input data at agreed points during the year, ensuring a consistent and up-to-date overview of pupil attainment and progress across all classes and cohorts.
- Analysis and Reporting: Insight provides analysis tools that enable teachers and leaders to identify trends, track groups (including SEND, disadvantaged, and EAL pupils), and monitor the impact of interventions.
- Pupil Progress Meetings: Data from Insight is used in pupil progress meetings to support evidence-based discussions and inform next steps for teaching and intervention.
- Transparency and Accountability: Senior leaders use Insight to monitor whole-school performance and report to governors, ensuring transparency and accountability

Checkpoints

CP1 – Autumn term	Week commencing 24 th November 2025
CP2 - Spring term	Week commencing 9 th March 2026
CP3 – Summer term	Week commencing 15 th June 2026

- Once data has been gathered at each checkpoint, the Headteacher, Deputy Headteacher and Inclusion Lead will meet with each class teacher for a Pupil Progress meeting.
- At the end of the first half term, the Inclusion Lead will meet with each teaching team to discuss any interventions and additional support needed.
- Checkpoint 2 is collected before reports are to be submitted, to enable staff to input data for the reports.
- A final summary of end of year expectations is shared with parents after the final checkpoint.

Greater Depth

The '3 point' system totals to 100%. Once a child has scored 100%, they will be considered to have achieved the level expected for that year. After this time, they will be expected to demonstrate 'greater depth' in both skills and knowledge. To showcase a greater depth understanding, class teachers will provide opportunities for pupils to broaden and deepen their understanding in any subject area.

Throughout the year, children of all ability levels will be provided with opportunities to showcase mastery of an idea or skill. This is when they are able to explain or justify their ideas and apply them to new areas of their learning.

Assessment of Foundation Subjects

There will be three levels of expectation for achievement in the foundation subjects. Children take control of their own learning and develop a love of learning through the use of a 'Big Question' approach. This is a carefully selected question which drives the topic and encourage deeper and broader thinking.

Class teachers ensure that the question offers a high threshold question to challenge thinking and develop curiosity. Teachers will introduce these at the start of each topic, ensuring that over the year the class cover

all of the expectations for that year. At the end of each topic, children revisit the 'Big Question'. Time is given for pupils to showcase their understanding of the topic. This highlights that children know more and can do more as a result of their learning. Staff assess pupil response to the 'Big Question' using DEV (Developing) EXS (Expected), EXC (Exceeding) criteria. This is fed back to subject leaders on a half termly basis to support their understanding of how well pupils are achieving in their subject area.

Reporting to Parents

Hadley Wood Primary School shares parent annual reports through Insight, our school assessment tracker. These reports provide a clear summary of each child's attainment and progress, alongside personal comments and next steps. Reports are securely distributed to parents and carers at the end of the summer term via Insight, ensuring timely and effective communication.

How Parent Annual Reports Are Shared

- Annual Reports: At the end of the spring term, every parent and carer receive a comprehensive annual report for their child, generated through Insight.
- Content of Reports: The annual report includes information on academic attainment, progress in reading, writing, and mathematics, as well as comments on wider achievements, personal development, and next steps.
- Accessible Format: Reports are shared with parents and carers via the secure Insight platform, ensuring accessibility, accuracy, and confidentiality.
- Supporting Conversations: Parents are invited to discuss the contents of the report with class teachers, supporting a collaborative approach to each child's education.

There are two formal opportunities for parents to meet with class teachers: at both the autumn term and spring term parent consultations. Parents are encouraged to approach staff at any time with concerns or queries about their child's progress and achievements.

Enquiries to the Inclusion Lead, Headteacher or Governors will be referred to the class teacher in the first instance.

Feedback to pupils

Feedback to pupils is the most important part of assessment and it is essential for children to make effective progress. Children need to understand what is expected of them, when they are achieving well and how they can improve their performance. Pupils are also encouraged to comment on their own work and that of their peers and make suggestions for next steps in their learning. The feedback can be verbal or written. Written feedback is usually related to the learning objectives and success criteria for the lesson. For information about written feedback please see the Marking Policy.

Target Setting

Targets are set for individual pupils across the school as part of the Pupil Conferencing cycle (see Marking Policy). These are set regularly for English and maths, but may also relate to other areas, such as behaviour, attitude and independence.

Wherever possible, children should be involved with the target setting process, identifying new targets and discussing ways to achieve their targets. Targets can be individual or group targets in order to meet the children's needs.

SEN

Children who are working significantly below the expected level for their year group will be identified on the SEN register. Progress measures will be set for the SEN pupils by the Inclusion Lead in conjunction with Class Teachers at each check point and will be tailored to meet their next individual step in the learning process. These may be written on their individual PEP (Personal Education Plan).

The Assessment Coordinator and Inclusion Lead and any other adult who has been working specifically with that child should analyse the progress made by SEN pupils. Pupil tracking and progress against individual

targets will be part of the Pupil Progress meeting. The Inclusion Lead will have half termly meetings with each TA/LSA to assess whether inclusion support and intervention is effective and whether further inclusion work/a different programme/training for adults/outside professionals are necessary.

Roles and Responsibilities

Assessment Co-ordinator (currently FW)

- Update the policy in the light of government advice and requirements
- Be the contact person for the LA regarding assessment arrangements, timetable for SATs etc.
- Lead the development of Assessment Policy
- Organise staff INSET ensuring development of practice
- Develop and monitor school assessment policy and practice
- Keep up to date with current assessment thinking and practice
- Ensure that assessment priorities are addressed in the School Development Plan
- Liaise with subject coordinators and class teachers
- Set challenging whole school targets

Curriculum Lead (currently LJ)

- Support the Assessment Coordinator where necessary with development of the Assessment Policy
- Develop and help to monitor school assessment policy and practice
- Keep up to date with current assessment thinking and practice
- Liaise with subject coordinators and class teachers
- Organise whole staff moderation meetings in all subject areas
- Monitor consistency of standards across the school, through work scrutiny
- Analyse KS1 and KS2 SATs results and tracking information
- Advise staff of outcomes of assessment

Subject Co-ordinators

- Lead whole staff moderation meetings in their subjects
- Monitor consistency of standards across the school, through work scrutiny in their subject area
- Be the contact person for their subject for the LA
- Analyse KS1 and KS2 SATs results and tracking information in their subjects

Class Teachers

- Make on-going assessments to inform their daily and weekly planning
- Make formal, **moderated** assessments at each checkpoint
- Keep a record of children's achievements in line with this policy
- Report to parents
- Administer, mark and input data from termly PIRA and Puma assessments
- In the case of Y2 and Y6, administer SATs
- Use Assessment for Learning strategies in their lessons
- Give children guidance and feedback on their work so they know how to make progress

Senior Management Team /Phase Leaders

- Monitor assessment practices, including marking and strategies used in lessons
- Interrogate analysis of data
- Carry out regular Progress Meetings with each class teacher

Inclusion Lead (currently TS)

- Co-ordinates the identification and assessment of children with SEN
- Monitors effectiveness of interventions
- Supports class teachers with provision of resources
- Supports teaching assistants/LSAs with intervention timetables and resources
- Meets regularly with teaching assistants to ensure consistency of provision
- Leads interventions where professional teaching skills are necessary

- Liaises with LA and stays up to date with available intervention schemes
- Manages PPG children whose emotional state is putting their learning at risk

Moderation of policy

The Headteacher is responsible for monitoring the implementation of this policy. Time is allocated for this vital task. The SLT, wider SMT and Governors use discussions with staff, progress meetings, lesson observations and work scrutiny to monitor the implementation of this policy. They will also arrange opportunities for cross school and inter school moderation together with other schools, and for the end of Key Stage classes, with the Local Authority or external moderators.

Staff training

There is no longer any training provided by the LA in order to keep up to date on current practice, legislation and guidance in terms of assessment, so this will be done by discussions with other schools. Other staff attend training and moderation meetings where it is useful (E.g. Foundation Stage Moderation and end of key stage training). There is regular INSET planned in the weekly Enhancing Outcomes meetings, bi-weekly Phase Leader meetings and INSET days including sharing good practice and opportunities to moderate work. Other staff, including admin and Teaching Assistants, receive training as needed on areas such as data management and marking during weekly support staff meetings.
